7. Measure your Countertops: Measure each edge of your existing countertops and draw a rough sketch using the graph paper on the following page. Include your measurements and the approximate location for sink and stove/cooktop. Indicate the location of any backsplash (dotted line) and finished edges (X). If you do not have existing countertops, measure the outside dimensions of your cabinets. If you have angled/corner cabinets, be sure to include the "inside" angle measurement (typically 45° or 90°).

8. Take a Photo: Take a photo(s) of your room/project. Email, text or bring your completed worksheet and photo(s) to our showroom when you meet with a Legacy Countertops consultant.
